President's Message

I hope you all had a good time over the 4th of July convention, I sure did.

This month our dance instructor is **DARIAN BARRETT**. I hope you have enjoyed our lessons as much as I have. Over the last year we have had many high quality instructors working for you. Each instructor may teach the same move a little different depending on their styles. Your personal style will reflect the instructor you associate best with. Keep in mind that one can always learn something from each style taught. Try to keep an open mind and your learning curve will go up quickly.

Some people seem to have a problem with the DJ'S choice of music for the night. It is the DJ'S choice, of music. For requesting a song you must know the artist name and the songs name.

The DJ'S are volunteering their time, energy and dance time to do this, give them your thanks , they deserve it.

Our finals are next month. Congrats to all the participants. This competition is the hottest of the year and it something no member should miss. Our dancers are more experienced than ever and the show will be the best we have ever done. Remember we have some of the best dancers in the state competing right here.

Our club has purchased a video camera which will now give you very high quality movies for all our functions ,especially our contests. These are a great keepsake and something to rent and show your friends what you do, so they may think of joining.

Shadow is now our club photographer. And ed gill is our new sergeant-at-arms. We still need a hospitality director. Until next month, see you dancing. Bill Garrity

INFORMATION FOR YOUR SOUL AND YOUR HEALTH

New love can look like mental illness and could be mistaken for a psychosis. In a brain scan it looks like a biological urge distinct from sexual arousal. It is a drive like being on drugs. It becomes even more intense when it is withdrawn. If you are in and then booted out of love you are out of control. Romantic love is even stronger than the will to live. Life truly is crazy one way or another!

A bank will give you much better loan rates if you have an account with them and the more money you do have with them will better your rates again.

If you do not know about "Craigslist" then you must check it out on the net.

Catalase- If oxygen is converted to hydroxyl radicals, which sometimes happens, then they attach and mutate DNA causing us to age. That's where antioxidants come to the rescue. Catalase are the most efficient antioxidants.

Watch out for virtual earth by msn and Google. The deadliest weapon is the tongue. The ugliest trait is selfishness. The greatest problem is fear. Best loss is self respect. Most dangerous is a gossip. Things turn out best for those people who can make the best out of the way things turn out. It is not you situation. It is your reaction to the situation.. The most powerful force in life is LOVE, It prevails.
